

# PEŁNA LISTA KSIĄŻEK I PUBLIKACJI Z ZAKRESU TRIBOLOGII I MATEMATYKI STOSOWANEJ Krzysztofa Wierzcholskiego

## 1970

[1] Wierzcholski Krzysztof: On the possibility of generalizing some simple empirical formulas concerning mechanical properties of concrete into metric space). Technical University Press Poznań, BL 15,76,1970, pp.68-75

[2] Wierzcholski Krzysztof: Partial differential equation of influence of different parameters on the strength of concrete Tech.Univ.Press Poznań, BL 14,69,1970,pp.154-161

[3] Wierzcholski Krzysztof: The differential equation 2-nd order occurring in the problems of strength of construction elements. Military Tech.School Press in Pila, Nr.5, 1970, pp.5-22

[4] Wierzcholski Krzysztof: Solution of the 2-nd order differential equation occurring in mechanics. Technical University Press Poznań, BL, 15,76, 1970 pp.78-87

## 1971

[5] Wierzcholski Krzysztof: Solution of the differential equation of the fourth order occurring in the strength of construction. Technical Univ. Press Poznań, BL 17,84, 1971, pp.24-39

[6] Wierzcholski Krzysztof: On a system of solutions of the differential equation  $z^{(n)} + ae^{i\psi} z = 0$ . Technical University Press Kielce, P-4, 1971, pp.17-29,

[7] Wierzcholski Krzysztof: The matrix space of the continuous functions that describe the influence of the intensity of vibration and  $c/w$  relation on the strength of concrete. Tech.Univ.Press Kielce P-4, 1971, pp.53-69

[8] Wierzcholski Krzysztof: Economically of structure of rectangular prism filled up with internal walls. (in Polish).. Technical University Press Kielce, P-4, 1971, pp.5-14

[9] Wierzcholski Krzysztof: The critical force of a straight bar with a variable moment of inertia Technical University Press, Kielce, P-4, 1971, pp.29-51

[10] Wierzcholski Krzysztof: Properties of solutions of the Equation:  $y^{(n)} + axy = 0$ . (in Polish). Własności rozwiązań równania różniczkowego:  $y^{(n)} + axy = 0$ . Military Tech.School Press in Schneidemühl (Pila), Nr.7, 1971, pp.5-8

## 1972

[11] Wierzcholski Krzysztof: Solutions of the ordinary  $n$ -order differential equation occurring in mechanics. Rozprawy Inżynierskie Polish Academy of Science, 20,2, 1972, pp.153-165

## 1973

[12] Wierzcholski Krzysztof: The method of solving of technical problems reduced into the differential equation with variable coefficients. Monograph. Technical University Press Kielce 1973, pp.1-167.

[13] Wierzcholski Krzysztof: Computer solutions of the ordinary  $n$ -order differential equation. Monograph Warsaw COPAN, Computation Centre Polish Academy of Sciences, Issue 114, 1973, pp.1-40

## 1974

[14] Wierzcholski Krzysztof: The existence of surface wave in a non-homogeneous isotropic semi-infinite body. (in English) Proceeding of Vibration Problems, 15,4,1974, pp.339-355

[15] Wierzcholski Krzysztof: Flat oil flow in the radial slide bearing. Exploitation Problems of Machines Polish Acad. of Science (Zagadnienia Eksploatacji Maszyn Kwartalnik Polskiej Akademii Nauk) 2, 18, 1974, pp.195-209

[16] Wierzcholski Krzysztof: Distribution of pressure in oil film of an axial slide bearing with stable segments. (in Polish). Rozkład ciśnienia w filmie olejowym łożyska wzdłużnego o segmentach stałych. Exploitation Problems of Machines Polish Academy of Sciences. (Zagadnienia Eksploatacji Maszyn Kwartalnik Polskiej Akademii Nauk) 3,19,1974, pp.312-321

## 1975

[17] Wierzcholski Krzysztof: On some  $n$ -order recurrence. Monograph. (in Polish). O pewnej rekurencji  $n$ -tego rzędu. Monografia. State Scientific Publishing House Polish Acad. of Science. (PWN), 1975, pp.1-125

[18] Wierzcholski Krzysztof: The cases of a new form of the Reynolds equation for pressure distribution in the bearing gap. (in Polish) Przypadki nowej postaci równania Reynoldsa dla rozkładu ciśnienia w szczelinie łożyska. Exploitation Problems of Machines. (Zagadnienia. Eksploatacji Maszyn Kwart. Pol. Akad. Nauk) 3,23, 1975, pp. 302-316

[19] Wierzcholski Krzysztof: Simultaneous influence of the inertia forces and variable oil viscosity on the pressure distribution in the slide journal bearing. (in Russian). Sovmestnoe vlijanie inercionnych sil i menjajusejsja vjazkosti masla na raspredelenie davljenija w poperecznom podszpynike skolzenija. International Tribology Congress, Conf. Proceedings, Brno, 1975, pp. 2-11

[20] Wierzcholski Krzysztof: On a certain algorithm of solutions of equations of  $n$ -th order in the problem of construction of machines (in Polish) O pewnym algorytmie rozwiązań równań  $n$ -tego rzędu w zagadnieniach konstrukcji maszyn. Exploitation Problems of Machines. Zagadnienia Eksploatacji Maszyn Kwartalnik PAN, 1,21,1975, pp.20-30

## 1976

[21] Wierzcholski Krzysztof: A new form of the Reynolds equation for the small Reynolds Number. (in Polish). Nowa postać równania Reynoldsa dla małych liczb Reynoldsa. Expl. Probl. of Mach. Pol. Acad. of Sci. (Zag. Eksp. Maszyn Kwart. PAN) 4,28, 1976, pp. 387-395

[22] Pytko Stanislaw, Wierzcholski\* Krzysztof: The influence of variable friction coefficient on stress distribution in the contact zone of two rollers loaded with tangent forces. (in Polish). Participation of the Author is 50%. Exploitation Problems of Machines Polish Academy of Sci. (Zagadnienia Eksploatacji Maszyn Kwartalnik PAN) 1,25,1976, pp.32-44

[23] Pytko Stanislaw, Wierzcholski\* Krzysztof: Material effort in the contact region of two rollers taking into considerations a variable friction coefficient (in Polish) Participation of the Author\* is 50%. Exploitation Problems of Machines Polish Academy of Sci. (Zagadnienia Eksploatacji Maszyn Kwartalnik PAN) 2,26,1976, pp.131-143

[24] Wierzcholski Krzysztof: Discrete functions occurring in the solutions of the machine exploitation problems. (in Polish). Dyskretne funkcje specjalne w rozwiązaniach zagadnień eksploatacji maszyn. Exploitation Problems of Machines. (Zag. Eksp. Masz. Kw. PAN) 3,27,1976, pp.347-353

## 1977

[25] Wierzcholski Krzysztof: Estimation of equations of motion, energy and mass continuity for unsteady non-isothermic flow of compressible oil through the gap of a journal bearing. Exploitation Problems of Machines Polish Academy of Sciences (Zag. Eksp. Masz. Kw. PAN) 2,30,1977, pp.173-184

- [26] Wierzcholski Krzysztof: About the system of solutions of the difference equation Monograph (in Polish). O pewnym układzie rozwiązań równania rekurencyjnego. Monograph. Technical University Press, Lublin, 1977, pp. 1-125
- [27] Wierzcholski Krzysztof\*, Dziopa Edward: The method of integration of the 3- order differential equation occurring in mechanics. (in Polish). O pewnej metodzie całkowania równania różniczkowego trzeciego rzędu występującego w mechanice. Participation of the Author\* is 80%. Tech. University Press Kielce, P-9, 1977, pp. 155-168
- [28] Wierzcholski Krzysztof: The influence of the surface roughness of the sleeve on the pressure distribution in journal bearing. Exploitation Congress in Katowice, 1977, Conference Proceedings pp. 117-120
- [29] Pytko S., Wierzcholski\* Krzysztof: Unsteady lubricant flow in contact gap between two cooperating cylinders. (in Pol.). Nieustalony przepływ oleju w szczelinie kontaktu dwóch walców. Part. of the Author\* is 50%. Exploitation Congress Katowice, 1977, Conference Proceedings: pp. 121-124
- [30] Pytko S., Wierzcholski\* Krzysztof: The pressure distribution in journal slide bearing for unsteady flow of oil with consideration of influence of temperature, heat transfer and gap deformation. (in German). Druckverteilung in Quergleitlager für nichtstationären Öldurchfluß mit Berücksichtigung des Temperatureinflusses beim Wärmeaustausch und der Spaltdeformation. Participation of the Author\* is 50%. International Congress Eurotrib 2, Conference Proceedings B.II 1977, pp. 62/1-62/6
- [31] Wierzcholski Krzysztof: The effect of the force of inertia and the variable oil viscosity on pressure distribution in a slide journal bearing. (in English). Wear, vol. 45, 1977, pp. 1-16

## 1978

- [32] Pytko Stanislaw, Wierzcholski\* Krzysztof: Pressure distribution in the bearing gap for the unsteady lubricant flow. (In Polish) Rozkład ciśnienia w poprzecznym łożysku ślizgowym dla nieustalonego przepływu oleju przy uwzględnieniu temperatury, wymiany ciepła i deformacji szczeliny. Participation of the Author\* is 50%. Exploitation Problems of Machines Polish Academy of Sciences. (Zagadnienia Eksploatacji Maszyn Kwartalnik Polskiej Akademii Nauk, Zeszyt Specjalny) Special Edition, 1978, pp. 49-59
- [33] Wierzcholski Krzysztof: Estimation of hydrodynamical equations for unsteady and non isothermal flow of oil in the gap of contact of two cooperating cylinders. (in Polish). Oszacowania równań hydrodynamicznych dla nieustalonego i nieizotermicznego przepływu oleju w szczelinie kontaktu dwóch współpracujących ze sobą walców. Exploitation Problems of Machines, Special Edition. (Zagad. Eksplo. Maszyn Kwartal. PAN, Zeszyt Spec.) 1978, pp. 9-22
- [34] Wierzcholski Krzysztof: The effect of the forces of inertia and variable lubricant viscosity on the hydromagnetic non-isothermic lubricant flow in the gap of a journal bearing. (in English) Exploitation Problems of Machines (Zagadnienia Eksploatacji Maszyn Kwartalnik PAN) 4, 36, 1978, pp. 403-430
- [35] Pytko Stanislaw, Wierzcholski\* Krzysztof: Unsteady oil flow in the contact gap of two cooperating cylinders. (in Polish). Nieustalony przepływ oleju w szczelinie kontaktu dwóch współpracujących walców. Participation of the Author\* is 50%. Exploitation Problems of Machines, Special Edition. (Zagadnienia Eksploatacji Maszyn Kwartalnik PAN, Zeszyt Specjalny) 1978, pp. 23-47
- [36] Wierzcholski Krzysztof: Influence of heat exchange and surface roughness of sleeves for pressure distribution and temperature in the transverse slide bearing. (in Polish). Wpływ wymiany ciepła i chropowatości powierzchni panewek na rozkład ciśnienia i temperatury w poprzecznym łożysku ślizgowym. Exploitation Problems of Machines. (Zagadnienia Eksploatacji Maszyn Kwartalnik PAN) 2, 34, 1978, pp. 143-162
- [37] Wierzcholski Krzysztof: Hydromagnetic non-isothermic flow in the bearing gap. (in Polish). Hydromagnetyczny nieizotermiczny przepływ w szczelinie łożyska ślizgowego. III Polish Conf. of Fluid Mechanics Polish Academy of Sciences, Częstochowa, 1978, Conference Proceedings pp. 148
- [38] Pytko Stanislaw, Wierzcholski\* Krzysztof: Unsteady oil flow in the contact gap of two cooperating rollers. (in English). Participation of the Author\* is 50%. Frontiers in Lubricant Tech. Congress Naples Tribologia e Lubrificazione, Marzo 1978, No. 1, pp. 2-3

[39] Wierzcholski Krzysztof: Hydromagnetic, non-isothermic lubricant flow in journal bearing including the lubricant inertia forces and variable oil viscosity. Monograph. (in Polish). Hydromagnetyczny, nieizotermiczny przepływ cieczy smarującej w poprzecznym łożysku ślizgowym z uwzględnieniem jej sił bezwładności i zmian lepkości. Monografia. Tech. Univ. Press Lublin, ser. A, Nr. 1, 1978, pp. 1-218

## 1979

[40] Wierzcholski Krzysztof: Models of discrete solutions of the recurrent equations of the k-order. (in Polish). Modele rozwiązań dyskretnych równania rekurencyjnego k-tego rzędu. Tech. University Press Lublin, 1979, pp. 97-120

[41] Pytko Stanisław, Wierzcholski\* Krzysztof: Elastohydrodynamic contact between two rollers in unsteady motion. (in English). Participation of the Author\* is 50%. International Journal of Friction Lubrication and Wear, vol. 55, 1979, pp. 245-260

[42] Wierzcholski Krzysztof: The influence of the non-monotonically changing Poisson's ratio coefficient on surface wave speed. (in Polish). Wpływ zmieniającego się niemonotonicznie współczynnika Poissona na prędkość fali powierzchniowej. Tech. Univ. Press Lublin, B2, 1979, pp. 143-153

[43] Grabiec Kalikst, Wierzcholski\* Krzysztof: Irregularities in designing and erections of r-c tanks for agriculture. (in Polish). Nieprawidłowości projektowe i wykonawcze zbiorników realizowanych dla rolnictwa. Participation of the Author is 50%. Structural Review (Przegląd Budowlany), PLISSN 0033-2038, No. 10, 1979, pp. 579-577

[44] Pytko Stanisław, Wierzcholski\* Krzysztof: A review of electro-magneto-fluid-dynamic problems of contact between two rollers. (in English). Participation of the Author\* is 50%. Exploitation Problems of Machines Polish Acad. of Sci. (Zagadnienia Eksploatacji Maszyn Kwartalnik PAN), 1, 37, 14, 1979, pp. 9-15

[45] Pytko Stanisław, Wierzcholski\* Krzysztof: The method of solving of the elastohydrodynamic contact in unsteady motion. (in Polish). Participation of the Author\* is 50%. Expl. Problems of Machines Pol. Acad. of Sci. (Zag. Eksp. Maszyn Kw. PAN) 2, 38, 14, 1979, pp. 155-172

[46] Wierzcholski Krzysztof: The estimation of solutions of Navier Stokes and energy equations for a flow of oil through the roughness gap of a journal bearing. (in English). Revue Roumaine des Sciences Techniques Serie Mecanique, 1, 24, 1979, pp. 91-109

[47] Wierzcholski Krzysztof: The estimation of solutions of the equations for the magneto-hydrodynamic flow of lubricant through the gap of journal bearing. (in English). Revue Roumaine des Sciences Techniques Serie Mecanique Appliquee, No. 4, 1979, pp. 665-682

[48] Janiszewski Ryszard, Pytko Stanisław, Wierzcholski\* Krzysztof: Ferrolubricants. (in Polish) Ferrociecze w zagadnieniach tarcia zucycia i smarowania. Participation of the Author\* is 33%. Tribologia, Issue 5, 1979, pp. 142-144

## 1980

[49] Krause Hans, Wierzcholski\* Krzysztof: The Ferromagnetic bearing calculations. (in German). Rechenmethoden für ferromagnetische Gleitlager. Participation of the Author\* is 50%. Schmiertechnik Tribologie, 26, 6, 1980, pp. 211-213

[50] Wierzcholski\* Krzysztof, Janiszewski Ryszard: Ferromagnetic bearings. (in German). Ferromagnetische Gleitlager. Participation of the Author\* is 50%. Schmierungstechnik 12, 1980 pp. 366-368

[51] Krause Hans, Wierzcholski\* Krzysztof: The influence of temperature and magnetic field on the deformation of the cylindrical ferromagnetic shells. (in German). Der Einfluß der Temperatur und des magnetischen Feldes auf die Verformungen einer zylindrischen ferromagnetischen Schale. Participation of the Author\* is 80%. Konstruktion Heft 6, 32, 1980, 7, pp. 264-266

[52] Krause Hans, Wierzcholski Krzysztof: Ferromagnetic lubrication of cylindrical bearing. (in German). Zur ferrohydrodynamischen Schmierung in zylindrischen Gleitlagern. Participation of the Author\* is 50%. Schmiertechnik - Tribologie, 27, 2, 1980, pp. 45 - 47

[53] Krause Hans, Wierzcholski \*Krzysztof: Theoretical considerations for the ferromagnetic friction. (in German). Theoretische Betrachtungen und Rechenmethoden für ferromagnetische Reibung. Participation of the Author\* is 50%. Schmiertechnik-Tribologie, 27, 1, 1980, pp. 18-20

[54] Wierzcholski Krzysztof: The estimation of solutions of Navier Stokes and energy equation for oil flow through the gap of a journal bearing. Part II. (in English). International Journal of Friction Lubrication and Wear vol. 58, 1, 1980, pp. 15-33

[55] Wierzcholski Krzysztof: A non-Newtonian ferrofluid flow in the deformable gap of a journal bearing in a magnetic field. (in English). Revue Roumaine des Sci. Tech. Serie Mecanique Appliquee, 3, 1980, pp. 319 - 339

[56] Janiszewski Ryszard, Pytko Stanislaw, Wierzcholski \*Krzysztof: Ferromagnetic lubricating flow. (in Polish). Ferromagnetyczny przepływ smarujący. Participation of the Author\* is 33%. Exploitation Problems of Machines Polish Academy of Sciences. (Zagadnienia Eksploatacji Maszyn Kwartalnik PAN), 1, 41, 15, 1980, pp. 37-45

[57] Wierzcholski Krzysztof: Analysis of the solutions of equations describing a non-Newtonian ferrofluid flow in the deformable gap of journal bearing in a magnetic field. (in English). Exploitation Problems of Machines Polish Academy of Sci. (Zagadnienia Eksploatacji Maszyn Kwartalnik Polskiej Akademii Nauk), 2, 42, 15, 1980, pp. 147-170

[58] Pytko Stanislaw, Wierzcholski \*Krzysztof: Ferrohydrodynamic contact between two elastic cylinders. (in English). Participation of the Author\* is 50%. International Congress Technical Academy of Esslingen, January 1980, pp. 129-136

[59] Wierzcholski Krzysztof: Theoretical considerations and calculations for ferromagnetic shells in magnetic field as a nonlinear elasticity problem. (in German). Theoretische Betrachtungen und Rechenmethoden für ferromagnetische Schalen in magnetischen Feld als nichtlineares Elastizitätproblem. Revue Roumaine des Sci. Tech. Serie Mecanique Appliquee, No. 4, Tome 25, 1980, pp. 499 - 516

[60] Grabiec Kalikst, Wierzcholski \*Krzysztof: Influence of the relative height of cylindrical tanks on the values of internal forces. (In Polish). Participation of the Author\* is 50%. Structural Engineering (Inżynieria i Budownictwo), 3, 1980, pp. 88-91

[61] Grabiec Kalikst, Wierzcholski \*Krzysztof: The distribution of parallel forces in concrete reactor screens. (in Polish). Rozkład sił równoleżnikowych w betonowych osłonach reaktorów. Participation of the Author\* is 50%. Structural Review. (Przegląd Budowlany). No. 3, 1980, pp. 170 - 171

[62] Wierzcholski \*Krzysztof, Janiszewski Ryszard: The elements of Tensor calculus in applications. Lecture. (in Polish). Elementy rachunku tensorowego w zastosowaniach. Skrypt. Participation of the Author is 70%. Tech. Univ. Press, Lublin, 1980, pp. 1-168

## 1981

[63] Grabiec Kalikst, Wierzcholski Krzysztof: Influence of temperature on the interior forces distribution in cylindrical R-C tanks. (in Polish). Analiza wpływu temperatury na rozkład sił wewnętrznych w konstrukcji cylindrycznego zbiornika. Participation of the Author\* is 50%. Structural Engineering. (Inżynieria i Budownictwo) PL ISSN 0021 0215, 7-8, 1981, pp. 243-246

[64] Pytko Stanislaw, Wierzcholski \*Krzysztof: Magnetohydrodynamic contact between two elastic rollers. (in English). Participation of the Author\* is 70%. International Journal of Friction Lubrication and Wear, vol. 65, 1981, pp. 285-293

[65] Krause Hans, Wierzcholski \*Krzysztof: Viscosity, capacity and temperature distributions. (in German). Viskosität, Tragfähigkeit und Temperaturverteilung- Der Einfluß der veränderlichen Viskosität und der Trägheitskräfte des Schmierstoffs auf die Tragfähigkeit und Temperaturverteilung im Spalt eines zylindrischen Gleitlagers im magnetischen Feld Participation of the Author\* is 50%. Schmiertechnik - Tribologie, 28, 3, 1981, pp. 91 - 95

## 1982

[66] Pytko Stanislaw, Ziemia Stefan, Wierzcholski \*Krzysztof: Contact Mechanics Problems. (in Polish) Monograph. Problemy wytrzymałości kontaktowej. Participation of the Author\* is 25%. Monografia. Warszawa PWN 1982, pp. 1-203

[67] Wierzcholski Krzysztof: Analysis of the lubricant flow in the deformable bearing gap. (in Polish). Monograph. Analiza przepływu lepkiego czynnika smarującego w odkształcalnych szczelinach łożysk ślizgowych. Praca habilitacyjna. Technical University Press. Lublin 1982, Serie A, Nr.10 pp.1-182

[68] Krause Hans, Wierzcholski \* Krzysztof: The influence of the sleeve surface roughness on the load capacity of journal bearings in magnetic field. (in English). Participation of the Author\* is 80%. International Journal of Friction Lubrication and Wear, vol.80 Nr.1, 1982, pp.59-70

[69] Krause Hans, Wierzcholski\* Krzysztof: Elastohydrodynamic lubrication of the bearing in magnetic field. (in German.). Elastohydrodynamische Schmierung des Gleitlagers im magnetischen Feld. Part. of the Author\* is 70%. Schmiertechnik Trib., 29, 1, 1982, pp.7-11

[70] Grabiec Halikst, Wierzcholski\* Krzysztof: The influence of the bottom slab rigidity of cylindrical tanks on the distribution of bending moments. (in Polish). Wpływ sztywności dna zbiornika na rozkład momentów zginających. Participation of the Author\* is 50%. Structural Engineering. (Inżynieria i Budownictwo) PL ISSN 0021 0215, 7-8, 1982, pp.132-135

## 1983

[71] Wierzcholski\* Krzysztof, Janiszewski Ryszard: The problems of magnetoelasticity and magnetohydrodynamics. Monograph. (in Polish). Participation of the Author\* is 50%. Technical University Press Lublin, Series A, No.27, 1983, pp.1-97

[72] Grabiec Kalikst, Wierzcholski\* Krzysztof: Influence of magnetic fields on the arising of generalized forces in the cylindrical composite concrete-steel walls. (in Polish). Participation of the Author\* is 90%. Structural Engineering. (Inżynieria i Budownictwo). PL ISSN 0021 0215, 3, 1983, pp.114-115

## 1984

[73] Nowak Zbigniew, Wierzcholski\* Krzysztof: Flow of non - Newtonian power law lubricant through the conical bearing gap. (in English). Participation of the Author\* is 70%. Acta Mechanica 50, 1984, pp. 221-230

[74] Wierzcholski Krzysztof: Energy description of the friction. (in Polish). Energetyczny opis zjawisk tarcia. XIII Tribological Symposium, Section of Exploitation of Machine, Mechanical Engineering Committee Polish Academy of Sciences, Conference Proceeding, Czestochowa Poraj, 1984, pp.253-260

[75] Nowak Zbigniew, Wierzcholski\* Krzysztof: Effect of a temperature dependent lubricant consistency on the capacity of a conical journal bearing. (in English.). Part. of the Author\* is 50%. Inter. Congress on Rheology, Mexico, Acapulco Conf. Proc. 1984, pp.583-589

[76] Wierzcholski Krzysztof: Flow of the lubricant in the deformable curvilinear bearing gap in magnetic field. (in German). Strömung des Schmierstoffs im deformierten krummlinigen Spalt des Gleitlagers im magnetischen Feld. Revue Roumaine des Sciences Tech. Serie Mec. Appliquee, 2, 1984, pp.193-209

[77] Krause Hans, Wierzcholski\* Krzysztof: Influence of the variable consistency of non-Newtonian lubricant on the conical bearing capacity. Part I. (in German). Einfluß der veränderlichen Konsistenz eines nichtnewtonschen Schmierstoffes auf die Tragfähigkeit eines konischen Gleitlagers. Teil 1. Participation of the Author\* is 80%. Tribologie und Schmierungstechnik 6, 1984, pp. 315 – 319

## 1985

[78] Krause Hans, Wierzcholski\* Krzysztof: Influence of the variable consistency of non - Newtonian lubricant on the conical bearing capacity. Part II. (in German). Einfluß der veränderlichen Konsistenz eines nichtnewtonschen Schmierstoffes auf die Tragfähigkeit eines konischen Gleitlagers. Teil 2. Participation of the Author\* is 80%. Tribologie und Schmierungstechnik 1, 1985, pp.44-47

[79] Wierzcholski Krzysztof: Flow of pseudoplastic non-Newtonian lubricant through the slide bearing curvilinear gap. (in English). International Congress on Tribology, Eurotrib 85, Lyon, Conference Proceedings, 1985, pp.4.2-1-5

[80] Wierzcholski Krzysztof: Analytical designation of the thermal stress and deformation in the boundary layer of the bearing cylindrical sleeve. (in Polish). Analizyczna metoda wyznaczania deformacji i naprezen w warstwie wierzchniej panewki walcowego lozyska slizowego na skutek obciazen cieplnych. XIV Autumn School of Tribology, Section of Exploitation of Machine, Mechanical Engineering Committee Polish Academy of Sci., Conference Proceedings, vol.II, 1985, pp.225-232

[81]Wierzcholski Krzysztof: Analysis of rheological properties of some lubricants condensed by polymers.(in Polish).Analiza własności reologicznych czynników smarujących zagęszczonych polimerami.Exploitation Problems of Machines Polish Academy of Sciences.(Zagadnienia Eksploatacji Maszyn Kwartalnik Polskiej Akademii Nauk),2,62,1985,pp.225-233

## 1986

[82] Wierzcholski Krzysztof: Flow of a non- Newtonian lubricant through the slide bearing curvilinear gap and capacity analysis. (in English). Revue Roumaine des Sciences Tech. Serie Mecanique Appliquee, 2,31,1986, pp.205-226

[83] Wierzcholski Krzysztof: Numerical solutions of EHD non - Newtonian pseudoplastic lubrication for two cooperating cylinders. (in Polish). II International Symposium Tribological Problems of Elements Operating in Contact, Section of Exploitation of Machines, Mechanical Engineering Committee Polish Academy of Sci. Conference Proceedings, Cracow 1986, pp.145-154

[84] Wierzcholski Krzysztof: Mathematical Model of the non- Newtonian lubricant flow through the bearing gap with curvilinear generating line in longitudinal direction. (in Polish). VII Polish Conference of Fluid Mechanics Polish Acad. of Sci. Committee of Mechanics, Conference Proceedings, Rydzyna, 1986, pp.562-569

[85] Wierzcholski Krzysztof: Influence of the variable consistency of pseudoplastic lubricant on the adiabatic flow of lubricant in the curvilinear bearing gap. (in German). Einfluß der veränderlichen Konsistenz eines pseudoplastischen Schmierstoffes auf die adiabatische Strömung dieses Schmierstoffes im krummlinigen Spalt des Gleitlagers. Revue Roumaine des Sciences Tech. Serie Mecanique Appliquee, 5,31,1986, pp.569- 587

[86]Wierzcholski Krzysztof:Aspects of numerical solutions for elastohydrodynamic lubrication.(in Polish.).Aspekty rozwiązań numerycznych dla problemu elastohydrodynamicznego smarowania.Expl.Probl.of Mech.Pol.Acad.of Sci.(Zagad.Ekspl.Masz. Kw. PAN), vol.21,3-4 ,1986,pp.503-512

## 1987

[87] Wierzcholski Krzysztof:Analysis of the new computation methods for the slide friction pair. (in Polish). Analiza i nowe metody obliczeń węzłów tarcia ślizgowego. XV Autumn School of Tribology Section of Exploitation of Machine, Mechanical Eng. Committee Pol. Acad. of Sci., Tech. Univ. of Rzeszow, Ser.of Mechanics 15, No.36, 1987, pp.179-183

[88]Wierzcholski Krzysztof:Non-adiabatic flow of lubricating medium with pseudoplastic properties in the friction pair slot of non-linear geometry of sliding surface in axial section.(in Polish). Exploitation Problems of Machines Pol.Acad.of Sci. (Zagadnienia Eksploatacji Maszyn Kwartalnik PAN)vol.22,1-2,(69-70),1987,pp.45-60

[89]Pytko Stanislaw,Wierzcholski\*Krzysztof:The effect of oil characteristics change on operation of through bearings of water turbine generator.(in Pol.).Part.of the Author\*is 50% Wplyw własności olejów na prace wzdłużnych łożysk turbogeneratorów wodnych.Expl. Probl.of Mach. Pol.Ac.of Sci.(Zag..Ekspl.Masz. PAN) vol.22,3-4,(71-72),1987, pp.251-259

## 1988

[90] Wierzcholski Krzysztof: The complex appreciation of the some rheological and physical parameters of oil with polymer additions occurring in the thin layer film. (in Polish). Kompleksowa ocena pewnych reologicznych i fizykochemicznych parametrów olejów z dodatkami polimerów pracujących w cienkich warstwach smarujących. XVI Autumn School of Tribology, Section of Exploitation of Machine, Mech. Eng. Committee Polish Academy of Sciences, Conference Proceedings, Pila, vol.I, 1988, pp.75-83

[91]Wierzcholski Krzysztof:Thermal stress and deformation of the sleeve in journal slide bearing. (in Polish).Napężenia i deformacje termiczne panewki łożyska ślizgowego.Expl. Probl.of Mech.Pol.Acad.of Sci.(Zag. Eks. Masz. Kw. PAN),vol. 23,1,(73), 1988, pp.27-40

[92] Wierzcholski Krzysztof: Estimation and integration of the basic equations for the non-Newtonian lubricant flow in the journal thrust bearing gap with non-monotonic curvilinear generating line of journal surface. (in English). Revue Roumaine des Sciences Techniques, Serie Mecanique Appliquee, No.4,1988, pp.367-386

## COMPARISON OF MAIN PAPERS

### Krzysztof Wierzcholski

● Exploitation Problems of Machines Polish Academy of Sciences (Zagadnienia Eksploatacji Maszyn Kwartalnik PAN) .....	39 papers
● Tribology (Tribologia).....	50 papers
● Exploitation Problems (Problemy Eksploatacji).....	6 papers
● Schmerungstechnik und Tribologie (Germany) .....	11 papers
● Internatio- nal Journal of Friction Lubrication and Wear.....	6 papers
●System Analysis Modelling Simulation OPA Overseas Publishers Association	5 papers
●Engineering Transactions (Rozprawy Inżynierskie) .....	2 papers
●Control and Cybernetics.....	1 paper
●Revue Roumaine des Sci. Tech. Serie Mecanique Appliquee.....	7 papers
●Acta Mechanica Springer Verlag.....	1 paper
●Acta of Bioengineering and Biomechanics.....	13 papers
●Russian Journal of Biomechanics.....	9 papers

●Journal of Kones..... 16 papers
